Portfolio

Cyrielle C

cyriellecoul

Montréal, Québec

## SKILLS

### Languages

French **Native**

English **Professional**

### Front-End

Angular · React · JavaScript · TypeScript · PHP · HTML · CSS · Tailwind CSS · Next.js

### Mobile

Java · Objective-C · React Native · Android Studio · Xcode

### Back-End

Node.js · REST APIs · Ngrok · Postman · Firebase

## PROFESSIONAL EXPERIENCE

**02/2021 - 10/2025**

mPhase · Montréal

### Software developer

Development of a web platform and applications used by over 10,000 users.

Angular · JavaScript · Objective-C · Java · Node.js · Docker · REST APIs · Git · MongoDB · Atlassian

> *Team of 10 developers within a 13-person company. Agile/Scrum framework using time-boxed sprints, CI/CD pipeline using GitHub Actions and Sentry, code review for each PR followed by QA.*

**Main tasks:**

- Developed and implemented new features.
- Collaborated with back-end teams to integrate APIs REST (Node.js), conducting testing and debugging via Postman and Ngrok.
- Queried and analyzed data using MongoDB.
- Analyzed and resolved bugs, ensuring product quality (QA).
- Collaborated on code reviews and pair programming sessions, contributing to team activities in an Agile setting.

**Key features:**

- Internal communication module
- Internal forms (disciplinary and technical forms)
- Automatic vehicle departures and arrivals based on speed and location
- Overview of upcoming routes for drivers
- Improvements to mobile app UI and UX
- Display of recent changes to routes, etc...

**Training:**

- AI for developers (Techno Compétences) - March 2025

### Database

MongoDB | NoSQL

### DevOps

Git | GitHub | Bitbucket | Confluence | Jira | SourceTree | Docker | Figma

### Methodologies

Agile/Scrum, Code Review, Pull Requests

### Quality & Tests

- Unit tests
- Integration tests
- Automated tests with Selenium WebDriver

## HOBBIES

**Squash**

**Balle Molle**
In 2 summer leagues

**Arts**
In all its forms: exhibitions, museums, circus, music, theater, drag, etc.)

**A favorite subject?**
The city of Montreal and which means of transport to choose to go from point A to B optimally.

---

**02/2018 - 09/2019**

**Communauto** Montréal

### Road agent

Managed technical aspects of the vehicle fleet, including inspections, transfers to car wash or charging stations, and equipping vehicles with missing essentials.

Travail d'équipe | Adaptabilité / Flexibilité | Suivi de projets | Autonomie | Rigueur | Résolution de problèmes

**06/2015 - 01/2018**

**Familiprix - L.Dufour et S. Lamoureux** Montréal

### Delivery and Pharmacy Technician

Handled deliveries of medications and other items, ensuring a high standard of customer service with every client interaction.

Empathie et écoute active | Service à la clientèle | Prise d'initiatives | Autonomie | Gestion du temps | Travail d'équipe | Gestion du stress

## EDUCATION

Udemy
**Selenium Webdriver - Udemy Certificate**
02/2026 - 03/2026 - Online

Collège Ahuntsic
**AEC in Mobile Application Development**
2020 - 2021 - Montreal, CA

Saint Gabriel Campus
**BTS - International Trade**
2007 - 2010 - St. Laurent, FR

## PROJECTS

### mTransport - Driver Application

This application, developed natively is a valuable tool for school bus drivers to determine the correct route, locate scheduled stops along a route, and check the presence of students (expected, absent, or already on board).

Java | Android Studio | Objective-C | Xcode | Node.js | REST APIs

### mTransport - Parent Application

Initially developed natively and then recently using React Native, this application allows parents to track their children's journeys, receive real-time notifications, and access information on routes and schedules.

React Native | Java | Android Studio | Objective-C | Xcode | Node.js | REST APIs

### mTransport - Portal Web

Transport - Web Portal is a complete platform that includes many tools that allow dispatchers to track the vehicle fleet in real time on a map
